Education

Bachelor of Technology (B.Tech) - Computer Science and Engineering
R.D. Engineering College, AKTU, Ghaziabad (Sept 2022 – Present) --Current CGPA: 7.0

Higher Secondary (12th Grade)
OFIC Muradnagar (2021 – 2022) Percentage: 74.40%

Senior Secondary (10th Grade)
OFIC Muradnagar (2019 – 2020) Percentage: 75.66%

Professional Summary

A highly motivated Computer Science student with a solid foundation in programming and software development. Skilled in Java, C, and SQL, with expertise in Object-Oriented Programming (OOP'S) concepts such as inheritance, polymorphism, encapsulation, and abstraction. Experienced in building innovative solutions and solving complex technical challenges. Seeking an opportunity to leverage technical skills, contribute to impactful projects, and grow in a dynamic organization.

Projects

Chat-App

Technologies: Java, Spring Boot

- Developed a real-time anonymous chat platform allowing users to connect securely without revealing personal identities.

- Ensured robust privacy features with no data retention and secure real-time communication.

- Highlighted project emphasis on user anonymity and secure messaging.

Weather Web App

Technologies: Java, Spring Boot, REST API

- Built a dynamic weather web application using Spring Boot and Thymeleaf for real-time weather updates.

- Integrated a third-party weather API to fetch temperature, wind speed, and humidity based on user-specified city locations.

- Ensured an interactive user experience with dynamic content rendering and efficient API data handling.

Technical Skills

Programming Languages: Java, C, SQL
Frameworks: Spring Boot, Swing

Developer Tools: Git, GitHub, Visual Studio Code, IntelliJ IDEA , Postman
Core Competencies: Data Structures and Algorithms (DSA), Object-Oriented Programming (OOP's)
